

Green Office Team Case Study

Winner of the 2009 PLANET Sustainable Company Award

Becoming part of the solution by committing to preserve the beauty that surrounds us and to heal our planet for future generations

Conservation

- **23%** energy reduction in 2 years
- Over **175** reams of paper saved annually
- **2,230** pounds of CO2 saved annually by switching 20 incandescent light bulbs to compact fluorescent light bulbs
- **\$1,524** saved annually by discontinuing water delivery service
- **100,000** trees planted annually, donated to a nonprofit on behalf of our customers

Education

- Using environmental purchasing procedures for all office products
- Newsletters sharing knowledge about improving the wellbeing of the community and the environment
- Continuous online education for employees
- Recycle bin campaign
- Employee "Eco Ambassador" facility improvement audits
- Carbon conscious challenge

Community

The Green Office Team participated in the following events:

- California Coastal Cleanup Day annually 2007-2010
- Sonoma Creek Restoration Day 2009
- Earth Day Bee Garden 2009
- Tour of local recycling and disposal facilities to better understand our waste flow 2008
- Novato Fire District fire-resistant garden installation 2010

Mission

Cagwin & Dorward's GO! Team strives to help the company become more energy efficient, reduce waste and improve the well being of our coworkers, communities and the environment.
